

Cable tray installation brackets are located away from the rooftop

Overview

BEAMA's 'Best Practice Guide to Cable Ladder and Cable Tray Systems' states that cable ladders and trays should be mounted far enough off the roof to allow the cables to exit through the bottom of the cable ladder or tray. The PHP Cable Tray Support is designed for cable systems of various widths at most specified heights above the roof surface. Layout isolation pads, (provided by contractor), according to the design and layout. Insert legs of duct support into bases and attach with 2-1/2" bolt and 1/2" nut. Unipier products. Cable tray installation on roof plays a crucial role in organizing and protecting electrical cables, particularly in commercial or industrial settings.
