

## Erecting a rain shelter for the distribution box

### Overview

Choose a waterproof electrical box with a high IP rating, like IP66 or IP67, for reliable protection against heavy rain and humidity. Regularly inspect seals, gaskets, and cable entries to prevent moisture ingress. Replace worn parts to maintain a tight seal. RSP Supply offers a wide selection of rain hoods and drip shields designed to add an extra layer of defense. Austin rainproof boxes are Underwriters Laboratories Listed for Wiring or Junction box applications. Austin rainproof boxes are constructed. Solarcraft three-sided electrical equipment shelters are designed for outdoor installations of instrumentation cabinets, electrical cabinets, controls, and other valuable equipment requiring more protection than an exposed electrical rack. The DOHO. Oldcastle Precast's computer aided design system means that your custom requirements can be quickly and economically incorporated into our standard, pre-engineered shelters.
