

Huawei 7703 Core Switch Motherboard

Overview

The S7703 is a high-performance, scalable switch chassis designed for enterprise core and aggregation layers. It features advanced service optimization, unified user management, and superb reliability, supporting high-speed 100 GE connectivity. When the chassis has no cable management frame installed, the dimensions (H x W x D) are 175 mm x 442 mm x 517. It is widely used in campus networks and data centre core/aggregation nodes to provide advanced control over wireless, voice, video and data. Huawei S7703 AC bundle including assembly chassis ES0B00770300, 2xMCUA Main Board, 2x 800W AC power module Huawei S7703 AC bundle including assembly chassis ES0B00770300 2xMCUA Main Board, 2x800W AC power module With 3 service slots Forwarding performance: 1440Mpps Switching capacity: 1. Agile features supported in V2R5C00 and later versions 3. Left-to-rear air flow, high-density wiring 5. The S7700 design is based on Huawei's intelligent multi-layer switching technology to provide intelligent service optimization methods, such as MPLS VPN, traffic analysis.
