

Huawei S5720 Switch Optical Port Speed

Overview

The S5720-EI provides four 10GE SFP+ ports (X series) or four 1000BASE-X ports (P series) for upstream connections. Other, The S5720-EI (C series and PC series) provides one extended slot that supports an uplink interface card or provides stack card, Supports two 10GE. Table 4-483 lists the mapping between the S5720-52X-SI-48S chassis and software versions. If one port uses a GPON optical module, other ports cannot be used. It is used with a console cable. The console cable is not delivered with the switch and needs to be separately purchased if needed. To. Huawei S5720 series Ethernet switches (S5720 for short) are next-generation energy-saving Gigabit Ethernet switches that function as the access devices to deliver high bandwidth or aggregation device for Ethernet multi-service networks. The Super Virtual Fabric (SVF) function virtualizes the entire network into one device. Built on next-generation high-performance processors and Huawei Versatile.

Huawei S5720-EI Series Switches Product Datasheet

The S5720-EI series enhanced gigabit Ethernet switches (S5720-EI for short) are next-generation switches that provide flexible GE access ports (including optical, electrical, and combo ports) and ...

S5720-28X-PWR-SI-AC Datasheet Overview

WR-SI-AC is a Layer 3 Ethernet switch. It supports twenty-four Ethernet 10/100/1,000 PoE+ ports, 4 of which are dual-purpose 10/100/1000 or SFP, and 4 x 10G SFP+. It offers double hot-swappable ...

S5720-SI Datasheet (Detailed Version)

The S5720-SI series switches (S5720-SI for short) are next-generation standard gigabit Layer 3 Ethernet switches that provide flexible full gigabit access and cost-effective fixed GE ports and 10GE ...

S5720-SI Datasheet (Detailed Version)

As a model of SI series, S5720-SI is the standard Gigabit Ethernet switch. This Layer 3 switch delivers flexible gigabit ports for access and cost-effective gigabit and 10 gigabit upstream ports.

S5720-52X-SI-48S

If the optical port has an optical module installed and the electrical port has an Ethernet cable connected, the optical port is used for data switching after the switch restarts. You can configure a ...

S5720-HI Datasheet (Detailed Version)

Huawei S5720 series Ethernet switches (S5720 for short) are next-generation energy-saving Gigabit Ethernet switches that function as the access devices to deliver high bandwidth or aggregation ...

Huawei S5720-LI Series Switches Product Brochure

The S5720-LI supports Smart Link, which implements backup of uplinks. One S5720-LI switch can connect to multiple aggregation switches through multiple links, significantly improving reliability of ...

S5720-HI Series Agile Fixed Switches

The ES5D21X04S01 provides four 10GE SFP+ optical ports for data access and line-rate switching. The ES5D21X04S01 can be installed in rear card slot 2 of the S5720-HI. Cards shipped since June 2014 ...

S5720-LI Datasheet (Detailed Version)

The built-in power module can provide 370 W PoE power, which ensures full PoE power on 24 ports in compliance in 802.3af or on 12 ports in compliance with 802.3at. The switch cannot connect to an ...

S5720-HI Series Agile Fixed Switches

With the support for 128K MAC addresses, 1M FIB entries, the S5720-HI series switch meets the requirements of educational networks and metro area networks and allows the access of a large ...
