

New type of hybrid optical and electrical cable for Papua New Guinea

Overview

This document outlines the specifications and requirements for Type II Optical/Electrical Hybrid Cables (OEHC), designed for access points and terminal equipment supporting data transmission beyond 1 Gbit/s while enabling remote power delivery. Learn about types, applications, technical specs, and their role in industrial, offshore, and smart infrastructure systems. In the rapidly evolving landscape of modern. How does 6W market outlook report help businesses in making decisions?

6W monitors the market across 60+ countries Globally, publishing an annual market outlook report that analyses trends, key drivers, Size, Volume, Revenue, opportunities, and market segments. Optical hybrid cables address this challenge directly. By combining optical fibers and copper conductors under a shared sheath, they carry communication and power. The 4700 km Coral Sea Cable System is a 40Tbps submarine fibre optic cable that brings next-generation connectivity to the people of Papua New Guinea and Solomon Islands. It directly connects Port Moresby in PNG and Honiara in the Solomon Islands to the global internet hub of Sydney Australia.
