

Passive Optical Devices PMTC

Overview

The Polarization Maintaining Tap Coupler PMTC Series at visible wavelengths is manufactured using advanced micro optic technology to allow the input signal to be splitted at various ratios with high extinction ratio. Pump combiner is built based on fused biconical taper (FBT) technique, widely used in fiber laser, can be designed to meet a wide range of power handling configurations, number of input fibers and adaptation to different fiber types. Optical Power (Continuous Wave) Max. 3 dB higher. parts without connectors. The devices are widely used for fiber amplifiers, fiber lasers, and testing systems. Model #: Polarization Maintaining 1X2 or 2X2 Filter Coupler (PMFC) series Polarization Maintaining 1X2 or 2X2 Fused Tap Coupler (PMTC) series Polarization Maintaining 1X2 or 2X2 Fused Tap Coupler (PMTC) -1550nm Polarization Maintaining 1X2 or 2X2 Fused Tap Coupler (PMTC) -1310nm Polarization Maintaining 1X2. The GKER Polarization Maintaining Tap Coupler (GK-PMTC Series) is an advanced optical component engineered to meet the demanding requirements of modern fiber optic systems.

Article Content

Polarization Maintaining Tap Coupler-PMTC

A Polarization Maintaining (PM) Tap Coupler is an optical device that splits an input signal into multiple outputs while preserving the polarization state of the light.

Passive Optical Device

In this chapter we will survey the key passive optical devices used in integrated photonic chips and compare the various approaches used to meet datacom application needs.

Passive Optical Components for Communications

Manufactured to a customer drawing or designed by Lightel from a customer concept, our functional modules include network protection switches, optical power monitoring systems and optical signal ...

POLARIZATION MAINTAINING (PM) TAP COUPLER (1310, or ...

POLARIZATION MAINTAINING (PM) TAP COUPLER (1310, or 15. Operating Temperature °C -5 to 70 Storage Temperature . °C -40 to 85 The above specifications are f. parts without connectors. Adding ...

PMTC Polarization Maintaining Filter Tap Coupler

The polarization-maintaining Filter Tap Coupler (PMTP) is manufactured using advanced technology to allow the input signal to be split into defined various ratios precisely with a high extinction ratio. The ...

PM Coupler-CSRayzer Optical Technology-One-Stop ...

It is widely used in the fields of fiber laser, fiber amplifier, fiber communication and fiber sensor, with compact dimension, low insertion loss, low polarization-related ...

PMTC Polarization Maintaining Filter Tap Coupler

The polarization-maintaining Filter Tap Coupler (PMTP) is manufactured using ...

PM Coupler-CSRayzer Optical Technology-One-Stop Fiber Optic Devices ...

It is widely used in the fields of fiber laser, fiber amplifier, fiber communication and fiber sensor, with compact dimension, low insertion loss, low polarization-related loss and high stability.

1064nm PMTC

1064 nm Polarization Maintaining Tap Coupler (PMTC Series) Rev 11 The Polarization Maintaining Tap Coupler is manufactured by using advanced technology to allow the input signal to be splitted at ...

PMTC Polarization Maintaining Tap Coupler at Visible Wavelengths

The Polarization Maintaining Tap Coupler PMTC Series at visible wavelengths is manufactured using advanced micro optic technology to allow the input signal to be splitted at various ratios with high ...
