

Revit cable tray automatic generation

Overview

A custom pyRevit tool that automates cable tray (trench) creation in Autodesk Revit using selected MEP elements such as pipes and conduits. Quick and Accurate Generation of Cable Tray Sections and Feeder Cable Schedules. more In this video, I demonstrate a fully automated workflow to generate cable trays directly from AutoCAD layouts into Revit using BIM objects - Free download! Cable Trays and Horizontal Racks | BIMObject Connect your model to generate a building LCA directly from Revit and understand the impact of choosing one material over another. com Design App Load BIM objects straight into Revit in 1 click. Transform existing conduit paths into fully functional electrical cables in seconds. When the offset is over 400mm it does not create a 45 dg connection, instead it creates a 90 dg connection, and we don't like that way, so I need to change it manually. Can anyone help me?

I got a snipping shot, the red is how I.
