

SC adapters for backbone networks are resistant to low temperatures

Overview

The SC adapter can be used in temperatures as low as -40°C and up to 75°C . Will this fit with other manufacturer's connectors?

Yes, it will work with all industry standard SC connectors. Is additional gasket or tape required for EMI shielding?

The SC connector temperature range defines the environmental limits within which an SC connector can operate and be stored without mechanical damage or optical performance degradation. Understanding this specification is essential when deploying SC connectors in data centers, outdoor telecom. g low loss fiber connections over high and low- temperature extremes. SC adapters are suitable for any data center, central office, MDU, CATV, or PON cabling installations using SC connectors. 3-D and TIA-604-3, FOCIS-3, GR-326, or IEC 61300. Adapters. SENKO's SC metal adapters are designed for applications that need EMI shielding or applications that could benefit from higher robustness of a metal housing. Something went wrong during preparation of your quote. For single mode and multimode applications a ceramic sleeve is supplied.
